VP

SUMMARY

As a dedicated JAVA/Fullstack Developer, I have honed my skills in developing robust RESTful web services and engaging user interfaces. With hands-on experience in Spring Boot, Angular, and agile methodologies, I strive for excellence in every project.

EXPERIENCE

SOFTWARE DEVELOPER

National Informatics Centre (NIC)

📅 03/2022 - 03/2024 📍 Bangalore

PROJECT NAME - SARATHI

- Proficiency in developing the Restful Webservices (API's) using Spring Data JPA, Spring Boot, and Angular.
- Experience in core Java-Multithreading, collections, Exception Handling and JDBC
- Experience in Configuring and deploying applications on Tomcat 8.0 server
- Involved in designing of few user interfaces using Angular12 using rxjs Observable library, Routing, directives, Services and Interceptors, headers

SOFTWARE DEVELOPER

Applots Software Pvt Ltd

📅 09/2021 - 03/2022 📍 TANUKU

PROJECT NAME - DREAMFOOD APP

- Worked on customer login page, new user registration page and OTP generation page
- Involved in three layer architecture design by developing code for controller, service, repository and view
- Developed user interface using Angular and Restful API's using SpringBoot

SKILLS

Core Java	Microservices	GitHub	SpringBoot
SpringDataJPA	PostgreSQL	HTML	CSS
JavaScript	Angular	Spring MVC	JUnit
JSP	Hibernate	SpringMVC	Postman
jQuery	MySQL	Struts	Tomcat
BitBucket	IBM DB2	RESTful API	Java EE
			Log4J

EDUCATION

MCA (MASTER OF COMPUTER APPLICATIONS)

S D COLLEGE OF IT

📅 07/2017 - 09/2020 📍 TANUKU

PROJECTS

SARATHI PROJECT

📅 03/2022 - 03/2024

Project Link-

<https://sarathi.parivahan.gov.in/sarathiservice/>

- Developed the Restful Webservices (API's) using Spring Data JPA, Spring Boot, and Angular.
- Environment: Java: JDK 1.7, J2EE, Spring MVC, Tomcat server, log4j, Spring Boot, Restful Web Services, Bitbucket/GIT, DB2.

DREAMFOOD APP

📅 09/2021 - 03/2022

A Food Delivery App which allows users to order food from their favourite restaurant

- Involved in the creation of customer login page, new user registration page, and OTP generation module.

EVENT MANAGEMENT SYSTEM

📅 09/2025 - 11/2025

Project Link-

<https://github.com/satya1607/eventmanaystem>

- This application simplifies organizing and attending events for event creation ,management and registration.
- Used SpringBoot for API's and MongoDB for database and Thymeleaf for frontend and Spring Security for user login and role based access.

ONLINE QUIZ APPLICATION

📅 09/2025 - 11/2025

Project Link-

<https://github.com/satya1607/onlinequizapplication>

- Admins create and manage quizzes with multiple choice questions. Participants can take quizzes ,get scored instantly and view their past results.
- Its built with SprintBoot and MongoDB for data storage with frontend using Thymeleaf and also Spring Security for user and role based access.

REAL ESTATE PROJECT

📅 09/2025 - 11/2025

Project Link-

<https://github.com/satya1607/realestateproject>

- It enables users to list,browse and manage properties for sale or rent.
- Used RestAPI and Thymeleaf for frontend and MongoDB for database, Spring Security for user based login
